Forecast for Sunday 18 Oct 2020

Weather: The morning will be largely dry and cloudy. Some patchy light rain, briefly preceded by some summit snow, will spread east across the Cairngorms in the afternoon, but the Angus and Perthshire hills should remain dry until after dark.

Chance of cloud free mountain/hill tops above 800m: Low cloud expected to be persistent between 600 and 800 metres across the Cairngorms throughout the day, and the Angus hills in the afternoon. Ochils and southern Perthshire ranges seeing the best of the cloud free conditions.

Visibility: Rather hazy under cloud cover in the north, but good across the south. Occasionally turning poor in the afternoon across the north.
